Subject: RE: Meeting with Environment and Climate Change Canada

Hi All,

We have a few more CD issues to cover tomorrow morning at 8:30 am.

Angela agreed to start the Road Side Emissions Data discussion at 9:00 am. She doesn't think this should push the signature device discussion back very much if at all.

Hi everyone,

Considering our meeting placeholder is at the same time as another ECCC-EPA meeting in Ottawa for both of our management, we suggest pushing this meeting back a few weeks, if this works with your schedule.

I moved the meeting to June 6th 2018 but we are also available on June 20th, if that better suits your schedule.

Please confirm your availabilities and we can follow-up with tentative agenda items.

Thanks,

-max

Hi guys,

Thanks once again for hosting the valuable meetings we had yesterday. Much appreciated! We will follow-up separately with some of the follow-up information discussed.

This meeting invite is simply a placeholder for this spring. We can discuss the agenda and required attendees closer to the date.

Cheers,

-max
